Dear Sirs,
I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—
I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.
You are at liberty to use this as you may see fit and remain
Dear Sirs,
Yours truly
WILLIAM TUMBELTY.

SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

BAHIA BLANCA

EXTENSION OF SOUTHERN RAILWAY

The clouds, political and meteorological, that lowered upon the country last week are dispersing with unusual rapidity. 'The unexpected ever happens,' more so in the Plate than anywhere else under the sun, and while a week ago we were all in the dumps with too much rain, the uncertainty about the Chilian Treaty, and the threatened expropriation of the Southern Railway, now all is changed, and the weather, the Treaty and the railway are all 'settled.' The country is, perhaps, to be congratulated quite as much on the happy conclusion in reference to the Southern Railway as on the pleasant hue which the treaty framed by Nature and the American Ministers has assumed within the past few days. The extension of the Southern Railway to Bahia Blanca will prove of greater importance to the progress and credit of this province than any measure ever adopted by a Governor of Buenos Aires. Englishmen are specially interested in this extension, as they are now settled in and around Bahia Blanca, indeed over the whole far South, as thickly as Irishmen are in the rich inside camps. The whistle of the locomotive at Bahia Blanca means, for all our countrymen and others down there, the quintupling (at the least) of the value of their estancias.
The following are the principal bases agreed on between Mr Parish, Chairman of the Great Southern Railway, and the Provincial Government, for the extension of the line—
1st—To extend the line to Bahia Blanca, within 2 1/2 years, and to Tandil within 3 years, but the Company engages to make every effort to finish both extensions before the times specified.
2nd—Fares and freight tariff to be reduced.
3rd—Important improvements in all the stations.
4th—Double line to Bursaco, to facilitate the traffic and enable daily trains for passengers only to be run.
In exchange for these advantages the Government engages not to expropriate the line during the twenty years which the original concession for it has yet to run. We must warmly compliment Messrs Parish, Moores and Cooper, who so ably represented the Railway Company in this vital question. They held a last conference with Governor Roach and his Finance Minister Sr Uriburu, on Tuesday, and the draft agreement was sent to the Government Notary yesterday to draw up the contract, which will be submitted to the Legislature during the extraordinary sessions next month. It is needless to say that it is certain to pass. Governor Roach and Mr Parish signed the contract yesterday.
As everything in connection with Bahia Blanca must henceforward be of great interest to our readers, we subjoin Major Howard's note to Government in reference to the lightship (the first on the South coast) which he has just placed off the mouth of that port.
Bahia Blanca, Oct. 12th, 1881
To the Minister of War
I am happy to inform Y.E. that, having surmounted the impediments caused by bad weather during the past fortnight, I have finally got the lightship into her place on the bar off this port.
On the 20th ult. I started for the bar with the anchors and fixed moorings, but was driven back by foul weather, and it was only on the 26th that I was able to commence work. The question of easily getting into the port of Bahia Blanca is now a problem solved, and the mariner will meet with no difficulty whatever. I write to-day officially to the Navy Staff, reporting this important fact.
The lightship (the brig-rigged schooner Manuelita was anchored on the 4th inst, 11 miles S. 35° W of Mount Hermoso, and 8 miles S. 50° E. of Nameless Point in 7½ fathoms at low tide. A tripod, with a ball in the centre, which I intend to place on the land N. 50° W, will be visible from the lightship. This tripod will mark the course of the entrance channel, in which I have moored 5 buoys temporarily until you send me the means of fixing them permanently. As yet I have only received one bell buoy on the pneumatic system, and I have laid it down in the channel, but it is too soon to report as to whether it is a good one or not. Nevertheless, I am bound to tell you that it is well made and appears an excellent buoy.
I am now studying the 2 plans for a port and landing pier which Y.E. sent me, and, congratulating Y.E. on the advantages to the nation and to mariners which the placing of the first lightship on the Southern coast will ensure, by opening a safe entrance to the best port in America,
I remain
Your faithful servant

LONDON LETTER.

(*From our own Correspondent*)
Sept. 18th.
The Board of Trade returns, the price of cotton, irrespective of 'cornering' in Liverpool, the fair prospects of the wool market, the continued demand for goods for Australia, the hardening from time to time of money, are all indications of a revival in commerce which can only be checked by the feebleness of the home market, so much dependent on the harvest that again for another year in a sad series of bad seasons must be pronounced as much under the average. It is an ill wind that blows nobody good; and one thing we may be certain of, the comparative failure of the wheat crops this year will act as the last straw on the overburdened back of the British farmer. He will be in no temper to listen to the flatteries of landlords but, as is already the case in Aberdeenshire, he will second the object of the 'Farmers' Alliance' and insist upon a complete reform of the relations hitherto existing between landowners and their tenants in this country.
In regard to the city, there are fewer complaints of business in general, but many people are still at the seaside or on the moors, or in Switzerland, and the autumnal trade has not fairly commenced. It is quite likely that it will be ushered in with money at six per cent. At the present moment there is no drain and things are as quiet as can be; but the reserve is comparatively low and the periodical demand for the Scotch banks, which generally amounts to half a million or more, as by law they have to hold in specie nearly four-fifths of their issues, must set in between this and the end of the year; a period when after each harvest the general transactions in Scotland are increased. We may also expect at any time a sudden demand for bullion in America, although such demand is very uncertain and depends on the operations of the Treasury; that is on the mode in which the American Government will choose to apply its large accumulations of specie, amounting to over 54 millions stg.
Meantime money in the open market in London is easy at 3¼ to 3½ good paper.
I draw your attention to an exceedingly well written letter from Liverpool in the *Times's* city article of yesterday, in respect to the so called 'Syndicate' of Liverpool cotton brokers who are said to be cor-

nering the spinners in Manchester and sending up certain classes of cotton 1½d to 1⅝ per pound. The London press in general, including even the *Economist*, and papers which, unlike the average of daily papers, really understand those questions, has been severe in its treatment of the Liverpool speculators and has taken the part of the spinners. But an article published a day or two ago in the *Pall Mall Gazette*, and now the letter of 'Vigilans' in the *Times* puts the subject in a different light. The Liverpool cotton brokers at all events appear to be exonerated from blame. There is after all no syndicate of 30 members and in fact no syndicate or ring at all, according to the letter in the *Times*. The speculation for the rise seems to have been in the hands of one person Mr. Morris Ranger; and also it seems that amongst the speculators for the fall who had previously been bearing the market extensively were some of the spinners in Manchester and Oldham themselves. These fellows have been justly cornered by Mr. Ranger, and hence the assumed indignation in the cotton spinning country. Still there is one point in the letter of 'Vigilans' that wants further explanation. He says on the 1st. Aug. "they—the bears, endeavour to compel the operator already mentioned to resell his contracts by tendering to him 100,000 bales of real cotton; but as the money was forthcoming for the entire quantity the experiment failed."

A hundred thousand bales of what these gamblers amusingly call 'real cotton' is no trifle to provide for; and the question remains that supposing that there was really no syndicate of cotton brokers, somebody must have been behind Mr. Morris Ranger.

He and his friends, as 'Vigilans' reminds us, were perfectly justified in reaping the benefit of their foresight and obstinacy in holding against the Oldham people and spinners who had been selling right and left cotton that was anything but 'real cotton,' and those people are justly punished: but the system of 'futures' and of gamblers in the raw material upon which so many millions depend for their livelihood is on one side or the other discreditable; and this last exposure will perhaps in a great measure put a stop to it.

It is stated that 13 mills at Ashton-under-Lyne will cease working for a week, the proprietors being in combination to counteract the Liverpool speculators. But as there are many more that thirteen mills in Ashton and they do not all seem inclined to stop and have probably bought their cotton when it was cheap and have not been 'bearing,' the closed mills are only likely to lose a week's work for nothing; a loss that may not affect the proprietors, as they have no doubt been overproducing lately and cotton yarns are too cheap; but it will be a serious loss to the poor operatives and their families.

LITERARY FORGERIES.

In re Brander.

To the Editor of the *Standard*.

In your scathing article on 'The Brander Joke' you say, 'the fraud perpetrated is one for which we find it difficult to find a parallel.' This indicates on your part also, Mr. Editor, but scant literary baggage, otherwise the notorious Irelaud's Shakespeare Forgeries would undoubtedly have served to aid your favorite theory about history repeating itself as applicable, to a certain extent, to the Brander joke.

The case in question is as old as the hills, and is thus recorded in the 'Anecdote Library,' by Sir Richard Phillips:—

"Mr. Samuel Ireland, originally a silk merchant in Spitalfields, was led by his taste for literary pursuits to abandon trade for those pursuits and published several tours: one of them consisted of an excursion upon the river Avon, during which he explored, with ardent curiosity, every locality associated with Shakespeare. He was accompanied by his son, a youth of sixteen, who imbibed a portion of his father's Shakesperian mania. The youth, perceiving the great importance which his parent attached to every relic of the poet, and the eagerness with which he sought for any of his MSS. remains, conceived that it would not be difficult to gratify his father by some productions of his own, in the language and manner of Shakespeare's time. The idea possessed his mind for a certain period, and in 1793, being then in his eighteenth year, he produced some MSS. said to be in the handwriting of Shakespeare, which, he said, had been given to him by a gentleman possessed of many old papers. The young man, being articled to a solicitor in Chancery, easily fabricated, in the first instance, the deed of mortgage from Shakespeare to Michael Fraser. The exstacy expressed by his father urged him to the fabrication of other documents, described to come from the same quarter. Emboldened by success, he ventured upon higher compositions in prose and verse, and at last announced the discovery of an original drama, under the title of 'Vortigern,' which he exhibited act by act, written in the period of two months. Having provided himself with the paper of the period (being the fly-leaves of old books) and with ink prepared by a bookbinder, no suspicion was entertained of the deception. The father, who was a maniac upon such subjects, gave such 'eclat' to the supposed discovery that the attention of the literary world, and all England, was drawn to it, insomuch that the son, who had announced other papers, found it impossible to retreat, and was goaded into the production of the series which he had promised.

"The house of Mr. Ireland, in Norfolk-street, Strand, was daily crowded to excess by persons of the highest rank, as well as by the most celebrated men of letters. The MSS., being mostly decreed genuine, were considered to be of inestimable worth, and at one time it was expected that Parliament would give any required sum for them. Some conceited amateurs in literature at length sounded an alarm, which was echoed by certain of the newspapers and public journals, notwithstanding which Mr. Sheridan agreed to give £600 for permission to play 'Voltigern' at Drury-lane Theatre. So crowded a house was scarcely ever seen as on the night of the performance, and a vast number of persons could not obtain admission. The pre-determinsd malcontents began an opposition from the outset: some ill-cast characters converted grave scenes into ridicule, and there ensued between the believers and sceptics a contest which endangered the property. The piece was accordingly withdrawn.

"The juvenile author was now so beset for information that he found it necessary to abscond from his father's house; and then, to put an end to the wonderful ferment which his ingenuity had created he published a pamphlet, wherein he confessed the entire fabrication. Beside 'Vortigern,' young Ireland also produced a play of 'Henry II.;' and, although there were in both such incongruities as were not consistent with Shakespeare's age, both dramas contain passages of considerable beauty and originality.

"The admissions of the son did not however, screen the father from obloquy, and the reaction of public opinion affected his fortune and his health. Mr. Ireland was the dupe of his zeal upon such subjecta, and the son never contemplated at the outset the unfortunate effect. Such was the enthusiasm of certain admirers of Shakespeare (among them Drs. Parr and Watson) that they fell upon their knees before the MSS.; and, by their idolatry, inspired hundreds of others with similar enthusiasm. The young author was filled with astonishment and alarm, which at that stage it was not in his power to check.

"Mr. Ireland died about 1802. His son, William Henry, long survived him; but the forgeries blighted his literary reputation for ever, and he died in straitened circumstances about the year 1840. The reputed Shakespereau MSS. are stated to have been seen for sale in a pawnbroker's window in Wardour-street, Soho, and so you see, Mr. Editor, the Brander joke is quite small potatoes after the Ireland one.

"Yours,

"*Nemo.*"

LA GRANDE DUCHESSE.

Of all the opera-bouffes composed by Offenbach, the Grande Duchesse is the best and most admired in general. The music is familiar to all, so much so that it has become old-fashioned, and is only played now as a 'derniere resource' in a ball-room to electrify drowsy spirits and tired limbs. In fact one seldom witnesses such a harmony of music, spirit and matter, of motion and limb, as in the dashing finale of the conspiracy scene; the music acts like a wand and the hands and legs move in the undulating vibrations of 'logeons le donc.'

Strange to say the Colon was only half full on Monday night, and the attendance was mainly composed of foreigners, the absence of high-life native circles being quite remarkable. Offenbach had an evil eye, they said, in Paris, and ladies used to cross the street when they met him. But the Czar of Russia and Schneider thought otherwise, when the monarch relinquished the 'sabre' and she made it the laughing stock of Europe, by the improvisation of a most characteristic French word in the celebrated air of the first act.

To say that the rendering of the Duchesse was perfect would be exaggeration, and we think that the only person that understood the part was Paola Marie: she interprets her role in a perfectly different manner to the one the public here has been accustomed to of late years. Thus in the 'j'aime la militaire' she was less loud than any prima actress we remember; the air is generally dashed off at the top of the voice. In the love-scene she was perfect, with a touch of practical melodramatic sentiment that made one envoy Fritz's position. In the drinking song we admired the artistic intonation she gives to her voice in some parts. As a finale we may confess that she made the success of the operette: Mlle. Gregoire in the secondary part of Wanda, was too genteel and too much Parisienne for the personification.

Fritz was pretty good, but not much General Boum went through his 'a cheval sur la discipline,' in true military style; the Prince was most mediocre, and spoilt the air of the first act, when he reads his florne: Grog was anything but a diplomatistic and the state councillor, or what ever he be, was not up to the mark. The beautiful beginning of the second act was simply miserable, and the choristas can only be congratulated on equivocal merits. The orchestra was well arranged, and the leader received a bouquet.

In fact the Grande Duchesse is a success, because Paola Maria is the soul of it, and she shines in every role, and what is more she sings and acts in an original manner.

The concert that followed the second act was an agreeable change. Mme. Leroux sang two pieces, the names of which we forget, but the merits of same were much appreciated by the attendance: her voice is powerful and goes through the high register very clearly. Mme. Paola Marie sang a song, pretty much 'truffe' about accidents she had witnessed 'through' a key-hole. Both were much applauded, and M. Grau may rest assured that as long as he can fall back on these two stars, he may rely on success. We advise all our readers to see the Grande Duchesse and judge for themselves, as there are many particularities in the piece that are relished according the individual qualifications, and naturally escape the general notice of a reporter.

EDITOR'S TABLE.

The news from Chile yesterday was so bright that it seems almost 'too good to be true':—Congress there hard at work on the Treaty, one Chamber has already passed it, and the whole business to be 'polished off' by both housas before dinner hour on Saturday next. What on earth was all the fuss of the last six weeks about, if things are to end so pleasantly? The 'gobeurs' in both countries must now look out for a new bugbear.

The *Nacion* and *Patria Argentina* were to the fore yesterday with fresh European news from Pernambuco and Rio. The acceptance by the new Boer Parliament of the Treaty with England (announced by Havas) is probably due to a stiff leader in the *Times* declaring that not another jot would be yielded to the Dutchmen and they might take their chance of a new war, if the treaty was not to their mind. The American Congress in Copenhagen has closed. The King went to the Lord Mayor's ball, and at supper made speeches in all the modern languages, from Welsh to Walloon. Court mourning ordered in England and Spain for President Garfield's death. Emperors of Russia, Austria and Germany are to have an interview soon. What are the Eagles up to now? Reports of the serious illness of the Pope were current, but the Paris papers say they are not true.

The Ramses from Hamburgh, has arrived. There were 250,000 people at President Garfield's funeral. Cholera has broken out on the Austrian frontier. Municipality of Madrid has launched a Consolidation Loan (Thrice happy Municipality!) Socialists arrested in Barcelona. Hector Varela made a splendid speech at American Congress in Madrid and left his Geneva effort in the shade. When Hector sat down King Alfonso stood up and followed in the same strain—Spain and Spanish America. Awful fire in the Phillipines, losses stupendous.

The Pacific steamer Galicia brings news to December 28th. Russia, Austria and Germany are negotiating a treaty against regicides, and public opinion universally approves the step. French people alarmed at want of news from Tunis.

The news from Montevideo is very aqueous. The River Uruguay has risen tremendously, and Paysandu, Salto and most of the towns on its banks are inundated and boats at a premium.

Official telegrams from Mendoza report all the Indians on the South frontier of that province as 'wiped out' in some recent encounters with the troops. We have heard this news rather often before, but hope it is true this time. Indians are like cats: they have nine lives, and often more.

We are sorry to say that the fight in the Provincial Senate on Tuesday on the $500 fee to be paid on each brand registered under the new and perfectly unnecessary Cattle Marking Law, was lost by the estancieros' friends, after a sharp debate. Senator Vidal made a splendid speech against the imposition of such a tax, but he was outvoted, and there is no remedy now, as the Bill has already passed the Deputies.

The Sunday Closing movement has been taken up warmly in Mercedes. At a meeting held there on Monday last the shopkeepers, to a man and a boy, voted for observing Sunday and signed a mutual agreement to do so. Bravo!

Tucuman and Misiones are not to have all the sugar to themselves, while Buenos Ayres 'wastes its sweetness on the desert air'. Messrs Abeja and Co. (capital name for a sugar firm) have proposed to the Government to start a plantation in this province, with a capital of 600,000 pats. They ask for a guarantee of 7 per cent, but it would never do for the Government to go into sugar, so the 'busy, busy Bees' will have to apply elsewhere.

We are informed by our musical reporter that the Circus gains popular favor every day. Amongst the other novelties worth seeing is the celebrated Girard family who perform a kind of grotesque acrobatic ballet, which is really remarkably clever and causes roars of laughter. The Corini family should not be permitted to exhibit the strength they possess in their teeth and jaws, being anything but an agreeable sight, besides which they are graceful and attractive on the trapeze, there being therefore no necessity for such a monstrous exhibition. Miss Margarita Guillaume mounts a beautiful mare and makes some daring vaults; she is always a graceful rider. Victor and Niblo, the flyers on the trapeze, are invariably enthusiastically received. The Circus fills well and, provided novelties are forthcoming, Guillaume will have a good time of it.

We give in another column the story of a better joke than Brander's and which required more talent. The interest in Mr Brander is waning, and the clever perpetrator of the hoax will spoil its effect by keeping it up any longer. Several people are suffering from the effects of undue cachinnation. We are glad to say that neither of the Branders, father or son, appeared in yesterday's *Nacional*. We saw the old gentleman in Calle Piedad yesterday, and he does not look a bit shaky.

We call attention to the advertizement of Messrs G Nuñez & Co, 144 Cangallo, in another column. They undertake to help the public to buy houses and lands cheap, a novel business. The profits that have been made and will be made in Rio Negro estancias, now that the Southern Railway is going to Bahia Blanca, are simply fabulous.

Mr Tauffenberger, the tenor of the French Opera Company, takes his benefit to-night, and we bespeak a full audience for this popular singer. The programme is Giroffe-Girofla and the Second Act of La Grande Duchesse. La Belle Helene is in preparation—the most 'cancanny' of all French operas. This French Company has now barely a week more to remain here, and we strongly advise those who have not yet heard it to go and do so. It is the best of its kind ever seen here, and it is far more than probable that we ne'er shall look upon its like again, the more so as the fickle public has not patronized it to anything like the extent it ought to have done; but such is B. Aires, where Branders of all kinds go down, and are embraced, while real merit often gets the cold shoulder.

There was a rumour afloat yesterday of a conspiracy having been discovered at Washington against President Arthur's life. It is to be hoped this report is untounded, and we think it must be.

H. M. new Plenipotentiary visited President Roca on Tuesday night and was most cordially received by H. E. Mr Petre has taken a house in Calle Arenales, we believe where the German Legation was formerly.

The report of the new Provincial Capital Commissioners was laid before Governor Roach yesterday. The race lies between San Fernando, Ensenada and Zarate. Our 'tipster,' in whom we have unbounded confidence, predicts the result at the winning post as follows:—

Ensenada.... 1st
San Fernando 2d
Zarate ..... 3d (and a bad one)

England and the United States have sent their adhesion to the Convention proposed by Colombia for establishing Arbitration as the 'ultimo ratio regum' instead of war. This is important, but we fear that the other great Powers will not follow suit, as their internal condition forces them to keep up standing armies. The day will come, however, when the peoples will get tired of being made pawns for monarchs' chessboards.

An English lady and gentleman who have just arrived walked into Congress Hall on Tuesday, while the Senators were in session, thinking that the admission was as free as to the British Museum. As they are totally unacquainted with the vernacular, the coloured porter resorted to his politest dumb-show and was eminently successful in inducing them to withdraw.

Our Paris Correspondent sends us a pleasant letter on the Electrical Exhibition, which will be found in our Supplement.

Viva! La Republica! The ironclad Admiral Brown entered Montevideo on Tuesday night. She caused a tremendous sensation there yesterday. She is a superb ship and has a thoroughly 'gare a qui me touche' look.

ON 'CHANGE.

October 19.

Patacons	25.45
Cedulas A	99
National Bank Shares	122

This was an exciting day on Change caused by the Italians again entering the National Bank share market and buying up all before them. It was said on some show of authority that a Syndicate of 16 had been formed with 32 millions ready money capital held ready for the shares to purchase, either cash or for end of month. That there is some truth in the story there can be little doubt, since the market rose steadily to 124½ for end of Nov. and then flattened to 123, which is a rise of about 8 p. cent within 48 hours. The shares opened for cash at 122⅜, 270 sold, closing at 122. For the end of month 11,150 shares sold, opening at 122⅜, rising to 123¾, and closing at 123, sales for Nov. 3180, opening at 124, touching 124½, and closing at 123. Total sales Bank Shares up to 2 o'clock 14,600 which is a very heavy day's business.

Speculation in this stock which for the last 3 weeks had so much died out, is apparently revived; some very strong outsiders, who have not touched a share for some time bought to-day, yet the market is very dangerous, and many who bought the other day at 116 were quite content to sell out to-day, being afraid of a sudden fall. However, there is more doing in this stock than anything else. Bonds Cedulas, Gas shares, all look glum and no life put into them, whilst shares are as lively as crickets.

Telegrams from Valparaiso received to-day at 2 o'clock announce that one house of the Chilian Congress had already ratified the treaty and before night probably the other house would follow suit.

A wish was expressed on Change to-day that the representative foreign and native merchants would on the interchange of the treaty organize some demonstration worthy of so great an event for both countries. We comply with our part in throwing out the suggestion. We trust some of the leading foreign merchants will move in the matter, which would be most popular.

Strange to say, notwithstanding the very favorable news from Chile, gold did not decline, on the contrary, there were more buyers than usual for the end of the Month, and some of the shrewdest men think that gold for the end of the month will be higher than now. It was even said on 'Change that on next Monday the Bank will again advance its rate of exchange and draw on London at 49, but this of course is only a conjecture. Gold opened and held at 25 45. Oash sales 18,900. For end of month 145,000 sold at 25.50, and for December and November 25.50; more buyers on long dates than sellers.

Cedulas rule very dull; another sale of the new Series E 6 o/o, they say was made yesterday at afterhours at 80, but no more new stock was issued to-day, but next week several lots of the new sixes are spoken of. Series A rules weak and much offered on time; paper money is so scarce that the stock comes fast on the market, and the delivery at the end of the month they say will be heavy. Series A for end of month opened at 99 and dropped to 98⅝, many lots offering at 99, no buyers over 98⅜, one small lot for Dec. at 99.

The Pacific str Galicia entered Montevideo to-day; her mails and passengers will be up in morning.

The sales at the ring were—
For cash 18,900 25.45
For Oct. 31st 145,000 25.50
For Nov. 30th 90,000 25.50
For Dec. 31st 110,000 25.50
Sales, 363,900.
Cedulas—
For cash A 38,800 99
For Oct 31st A 20,000 99-98⅝
For Dec 31st A 5,000 99
Sales, 63,800.
Nat. Bank Shares—
For cash 270 shares 122½-½-122
For Oct. 31st 11,150 shares 122½-123-¼-½-⅝ to 122½-123
For Nov. 30th 4,500 shares 123-¼ 124-¼-½ to 123¾-⅞
Sales, 15,920.

There was less stringency in the money market to-day, and one broker reports short date pagares done at 7 in paper, which is a great improvement.

Gold at afterhours strange to say ruled harder, and some lots for end of month were bought at 25.52½, buyers on time for long date offering better rates and strange to say no sellers.

National Bank Shares at afterhours ruled very frisky, and spite of free sales by parties who bought yesterday the market held strong; prices at 4 o'clock receded a little, and 500 shares sold for end of month at 122½, but the market closed buyers at 122⅝.

Cedulas Serie A freely offered for all dates at 99, and one large lot sold at afterhours for end of month at 98⅜; the brokers are very anxious to get the new Series on the Bolsa and they say on 'Change that before the end of the month 150,000 Series E will be on the market.

National Bonds off-ring, but nothing sold, although prices very low; the fear is that the stock will come out from England, owing to the London money crisis, yet telegrams from London dated last night were received to-day and nothing whatever about any great money pressure.

Mr Forrester had the Bolsa all to himself today at 3 o'clock on the exhibition of his new style of cotton pocket handkerchiefs with some of the principal estancia marks beautifully stamped thereon. The handkerchief will prove an undoubted hit in the camp and will sell by the gross; the wholesale price is $48 per dozen.

A sale of 500 Nat. Shares for Nov. made at 4 o'clock at 122¼, and later on 600 shares for Oct at 122½, and 200 at 122¼. Market closed weak.

Mr Henry Fynn, of Montevideo, was warmly welcomed on 'Change by his numerous friends, also Mr Melville from Canada de Gomez.

Shearing was resumed in the North to-day, and within ten days we shall have at least one hundred thousand arr. of new wool in.

Hides brisk and much doing, they say that there are 280,000 hides loading in Montevideo and 80,000 here; the following sales here:—
800 Correntino 47
1500 do 46½
3000 Entre Rios to arrive 52

The Government we hear is already receiving offers for the hundred million loan. The conversion of all Argentine stocks into 5 per cents is a measure suggested to the Government by some London bankers.

Freights rule the same, fcs.25 and 10 o/o for Havre. Senegal loading for Bordeaux at fcs.15 and 10 o/o, and Vasconia at f s.20 and 10 o/o.

Exchange no change in rate.

Sovereigns in Rio rising and exchange weak.

Messrs Forrester & Co sold to-day to arrive on reserved terms—
2000 barrels cement
A ca go of smith's coal.

The Prov. Bank discounted to-day 4½ millions.

The steamer Santos leaves on 25th. The next steamer of this line will be the new steamer Rosario, to arrive on 1st and sail on 10th Nov.

The Bolsa opened this morning with a breeze of sunshine; the news from Chile could not be more favorable, and as we noticed in our last, for the last few days the market has been speculating on this good news. With regard to Chile we have advices from Valparaiso that Congress has met already, and the Committees of both houses having previously reported favorably, the treaty will be discussed to-day, the state of the case is in the Chilian Senate, there are but 3 Senators opposed, and in the Deputies, although the opposition may be more numerous, there is still a very large majority in favor of the treaty. A chasque with the treaty signed and ratified and concluded by the Argentine Government is expected in Santiago on the evening of 22nd, or on Sunday morning 23rd.

They have news in Valparaiso that the treaty is on the way across the Andes, and it is expected it will arrive there on saturday. The greatest and best of good feeling exists in Chile towards Argentina and on the ratification of the treaty there, it is said a grand function and demonstration of rejoicing will be made.

The splendid Argentine ironclad Almirante Brown arrived in Montevideo at 8 o'clock on Friday night, and the President received telegram of her arrival just as the new British Minister, Mr Petre, who had been visiting Madame Roca, left his house. The anchorage for the Almirante Brown has been arranged at a point off Ensenada; she will probably be up to-morrow.

Several foreign gentlemen left town this morning to visit the Western camps about Lincoln and further out; it seems that renewed interest is taken in those camps now, which were never more splendid than at present.

We hold for to-morrow a very important note from Mr Frank Parish to the Minister of the Interior on the subject of the guarantee to the Central Argentine Railway. The Company offers to pay the Government in cancellation of all accounts the sum of £240,000 and alter the terms of the contract.

Letters from Rosario report everything flourishing up there, house rent has risen 25 per cent within last two months. The wheat men are, however, getting nervous about so much rain, although so far the crops look most promising, a much larger tract is sown this year, and as far as LeonesStation, whereas in previous years the wheat farms only extended a little beyond Cañada de Gomez. Mr C S Bowers, of B. Aires, paid Rosario a visit the other day and was at once enveloped in friends.

The National Government has named Mr Ealogy Cueco to sell at public auction 37 lots of estancia land in the Province of Cordoba; the basis price for the land is fixed by the Minister at 550 fuertes per square league; one buyer can buy all the lots, and the purchase money to be paid according to the terms of the Land Law of Oct. 1878.

The Welsh colonists so long in town were sent off to Chubut yesterday by the Government. The delay these colonists meet with in getting passage to Chubut is most censurable. Mr A Fernandez has offered the Government to put on a line of vessels for the service, and it ought to be accepted.

Up to the present all Governor Barros's efforts to find good sweet water in the port of San Antonio have completely failed, and the borings have been made to a depth of over 50 metres; the Governor intends to continue boring to 110 mstres and then, if not found, to abandon the enterprise, which means the abandonment of the schems for making San Antonio the Rio Negro port.

Telegrams up to-day from Patagones report a most dreadful storm and flood; it rained as never before for 6 days, the camps are inundated, and many of the houses in Patagones blown down.

We give in our leading columns all about Bahia Blanca, and the highly satisfactory arrangement made by Governor Roca with Mr Parish for the railway. Holders of land on the Sauce Corto, who have suffered so much, will come out all right in the long run; this railway will add to unfold to their lands, as also the great improvements which the National Government is carrying out in the port of Bahia Blanca.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Dielh. La facultad de Artes y Oficios en la calle de Brasil, el Museo, el Hospital Frances, el Parque, de Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Venderemos por el precio que esceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.

Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.

Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.

Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.

Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.

A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.

A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guaminiy Puan, pasando por su centro la galera que va a Carhue.

Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orden del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.

Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.

Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.

En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.

Los titulos son de primer orden.

Los linderos y su ubicacion los siguientes. Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de D A Burgos; por el S. E. con el num 38 del mismo Gonzalez Chaves.

El lote 36 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.

NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

PARIS LETTER.

(Our Own Correspondent.)

September 19th.

The visitors at the Electricity Exhibition are a curious class; where sparks are so plentiful, they have not, as a rule, a single one of gaiety: their appearance is that of surprise and wonder, with mouth open, to express astonishmen, or lips closed, to prevent the expression of a remark that might betray ignorance. Everything is solemn and sedate, as if in presence of some mighty potentate. Occasionally a third-class shriek may be indifferently heard in the distance, as some timid creature undergoes momentary galvanization in a curule chair. The 'Arry' element is conspicuous by its absence, and even outside not a representative of the 'Roaring Camp' is visible. Other singularity, it is very rarely that a visitor makes a second pilgrimage to the Exhibition; the average intellectual individual, that has a smattering of the ologies, ought to study some handy-book on electricity before coming, if he desires to reap the fruits of knowledge. There is a large number of suspicious-looking aged gentlemen in black, blue, or green spectacles, that devour each exhibit in silence: they are the great ones charged doubtless with the future of electricity. The ladies admire the sewing machines with magic pedals, as things fearfully and wonderfully made. close at hand is the boxed fluid, made up in so many pounds to suit customers. The machines for generating the electricity are only noticed by professional folks. Getting up stairs, the salon portion of the show is reached; here again pleasure is lost for the general public as they comprehend nothing, save flashing lights, bells ringing and alarms striking more or less loud or continuous. It is only necessary to visit the Suan and Edison salons, and contrast their soft golden lights with sepulchral whites throughout the building, to decide that the latter belong to the light of other days. The Suan candelabra is very effective, but there is a combination of the tap and the bar room where it is suspended which does not advantageously harmonize with the delicate discovery. Thirsty souls might do their liquoring up at the international buffet down stairs. Edison's fittings up are elegant and artistic: the paintings and tapestries are numerous and valuable, but their delicate beauties seem to appear in dimish, religious light. Had Suan similarly decorated his bar room, the opinion is, his lamp would prove superior in bringing out tints. The Edison representatives ever 'take the flow', and address the international crowd that collects, in pure American language, interspersed with broad grins; in a telephonic interlude, between the tube yelling, 'Sally come up,' and 'a grog for two'; the lecturer plunged into theology, by announcing Edison's opinion, 'that God Almighty was the most perfect of artificers,' to which even French free-thinkers politely bowed affirmation.

The electric train, not railway, is the popular toy; 'Wait for the waggon,' is every visitor's motto, but to get into, as well as to get out, is an ugly risk, especially where children in the arms are admitted free. The driver has no whistle to blow, he employs a horn of chase: the carriage is not driven or propelled, but attracted along a metal groove, lamp-post high, in which a copper wire is fixed: the carriage has a bunch of wires and lockets in connection therewith, and changed, as the current which obeys, as did Ariel Prospero, is required to flow in an inverse direction, for every contrary appears to be embodied and reconciled at the same time, in the fluid. This grooved iron way offers the advantage of inducing suicides to shuffle off the mortal coil; two bodies were found hanging from the aerial iron rods like clothes on a line; the unfortunates concluded electricity still needed martyrs of science. No bird ever alights on that way: patriots say because it has been erected, and is owned by, two brothers, Prussians. This is not generous, as Bismarck has been of late flirting with France, and showed his sincere love for his quondam enemy, by urging the occupation of Tunisia—where chronic flounderings flourish.

The 'Rivals' is the political piece being enacted, where Messrs Gambetta and Ferry are the stars, Both are agreed, it seems, on the necessity of deputies not considering themselves to straitlaced in the matter of election pledges. Both politicians are necessary to each other to secure a majority in the Chamber, against radicals, who are now viewed as a thousand times worse than royalists. Gambetta boasts in Normandy that his followers represent France; then Ferry flies to Vosges to announce the general elections are in favour of his party. Gambetta demands, 'reforms with moderation': Ferry 'moderation in reforms.' It is the difference between, 'Marchioness, your beautiful eyes,' and 'your beautiful eyes, Marchioness.' Then Ferry, like Paddy, maintains that 'one man is as good as another—and a great deal better.' To the credit of the nation, it smiles with profound indifference on the political wire-pulling,

There has been no display of gush whatever anent the resumption of the Commercial treaty negotiations. Success depends on friend John being very blunt in maintainiug what was promised him, and to put his foot at once down on any unbusiness like way of working. M. Leon Chatteau, who was delegated by the late Menier, the chocolate manufacturer, to negociate a commercial treaty between Uncle Sam and France, but failed, has taken to stump his country in favor of American pork: he maintains, that pending the arrival of Henry the Fourth's millennium, when every Frenchman would have a fowl in his pot on Sundays, a nice 2 lb. cut of Chicago or St. Louis gammon, on a cushion of greens, might well take the place of the coming bird,

The trees along the Boulevards have been in ill health this year: several have even sickened to death. It is said the traffic of the streets shakes the life out of them, or they pine away from nostalgia. All will not die, but all are struck. At the Bourse, the desolation is flagrant: the atmosphere there however is pestitential from speculation. The vernis of Japan succeeds very well, and also the 'tree of love,' with its purple blossoms and tufty foliage: Gambetta is to have all the repaires of Belleville planted with this tree, before the next general election; the tri acanthos, or thorn tree, has demonstrated its suitability for city life; it develops in the centre of its trunk bushy thorns, like the horn on the snout of a rhinoceros; in America it forms an invaluable fence against cattle and—creditors.

The cafes-concerts are not a bad barometer of Parisian manners, as their public is exclusively composed of those classes that formerly tenanted the galleries of the theatres, but which they have had to desert, on account of high prices. The three most popular songs are: the Cobbler, who gives his opinion about the demi-mondians, counts and Marquises, whose boots he makes or—repairs; the second is, 'Le Frere a Pamela,' a Monsieur Alphonse, who has escaped apprehension by the police, being suspected of living on the earnings of thieves; the third is 'Canaille, mais honnete,' where an artizan does not work, neither begs nor steals, but at last reforms to save his poor mother from want. All the songs and their morals, are rupturously re-demanded. At the Electric Exhibition there is telephonic connection with the Operas and theatres: were the authorities to lay down pipes to the leading cafes-concerts, moralists could hold the mirror up to nature at their ease, and even goody people be instructed.

The Academy of Science has refused to listen to a communication of high importance, from an astrologer, who produced data to show the collapse of our globe on the 15th November next, the epoch fixed for the closing of the Electricity Exhibition. In any case, friends will please accept this notice: thrifty housekeepers will only take in coals by the bag, and those sects who have their grave clothes prepared from their pocket money, in advance have full time to air them.

Very few reliable souvenirs of Molière exist: only a few lines of his writing are authentic, a receipt to a debtor. The French Shakespeare made his living not only as an actor, interpreting his own plays, but he turned an honest penny by purchasing and selling house property. The half of his jaw bone is preserved under a glass case in the green room of the Theatre Francais, as is also the arm chair in which he partly expired. The piece of the jaw bone has its odyssey. The Convention decreed that the bones of Molière, Corneille and La Fontaine were to be ground into bone dust, not for agricultural purposes like those of latter day heroes, but to be mixed with plastic matters, moulded into vases, and the latter presented to Museums. When tibia, vertebre, &c, had been crushed, the dust that was doated upon would not mould. The chemist Darcet had a bit of Molière's jaw bone unused, so he kept it as an objet d'art.

The 'Vente de Tata' is a three act comedy, by Messrs Wolff and Hennequin. Mlle. Tata is an actress, and has written to three of her adorers; that she has sold her secretaire, forgot to take their love letters out of the drawers, and suggesting their buying in that article of furniture; they will do this at any price, what Tata desires is to obtain money, particularly as two are married, and the third on the eve of being so; but a Dutch amateur of curiosities has bought the furniture, will not part with it, and hence the three gentle men assume every disguise to get at and examine the drawers. The piece is as full of wit and mirth as an egg of meat.

On the justly unpopular line of railway to Marseilles, when safety is left to chance, or perhaps the god that protects drunkards and babies, travellers will only pay for tickets, on conditien that their lives will not be endangered.

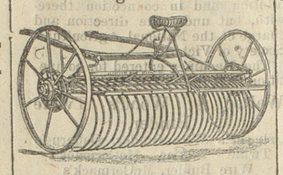
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extraordinary success various attempts have been made to imitate them; but J. & F. HOWARD'S simple broke principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

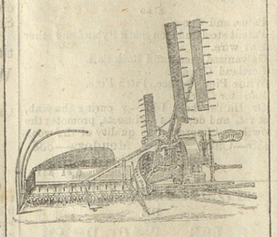
Howard's New Patent Simplex Mower.

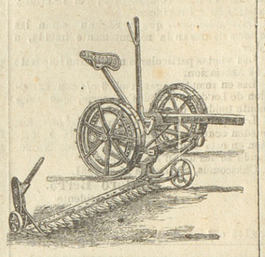


J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

Prices in England.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt. £18 0 0

Howard's New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overrated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguish. od place they have obtained in public trial fields, have fully demonstrated their superiority.

Prices in England.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt £29

CORDOBA

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from the necessity of things, whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groce
